

TROPICAL FONDANT SPECIFICATIONS

INGREDIENTS

Sugar, corn syrup, canola oil, palm kernel oil, water, natural flavor, cellulose gum, glycerin, citric acid, STS, soy lecithin. Contains soy.

STORAGE AND SHELF LIFE

Storage: Unused fondant should be resealed quickly and wrapped airtight. Trimmings stored separately. Store at ambient temperature, away from direct light.

Handling Procedures: Make sure your work surface, tools and hands are clean and dry. Use corn starch, shortening or powdered sugar to avoid sticking to your work surface. The product will be firm out of the pail, as you knead, the fondant will become soft and pliable.

Temperature for distribution and warehousing: Product should be stored/warehoused below 95° F. The temperature of the product is important mostly to the end user and may benefit by being below 95° F before handling.

Shelf Life: 12 months

PRODUCT SPECIFICATIONS:

Is Satin Ice vegan? Satin Ice Tropical Fondant is 100% vegan. The glycerin used is plant derived and our sugar is not filtered through bone char.

Is Satin Ice Kosher/Paerve? Yes! For our Kosher Certificate, please contact us.

Is Satin Ice Halal certified? We are happy to say that we have a line of Halal Certified products. These are available by request to the distributor or shop that you purchase from.
